Miami University

REPORT & RECOMMENDATIONS

The Committee on Relationships Between Miami University and the Miami Tribe of Oklahoma

April, 1994
PREFACE

The Committee on Relationships Between Miami University and the Miami Tribe of Oklahoma was appointed by the President in January, 1994. The charge to the Committee was to develop a comprehensive plan to establish "a program of educational and support activities, with advice from the Miami Tribe of Oklahoma, which would enhance relationships with the Miami Tribe; educational programs about the Tribe and other American Indian peoples for students, staff, and faculty of Miami University; and to seek to attract members of the Miami Tribe as well as other American Indian students to Miami University."

The Committee held its first meeting on February 24 and met each week since that time except for March 15 (the week of spring break). The last meeting was held on April 19. At its first meeting, the Committee organized itself into three subcommittees: subcommittee on technology, subcommittee on educational programs, and a third subcommittee on administrative and other issues. The subcommittees were encouraged to consult with other members of the community who might have interest in the Committee's work. The chair acknowledges, with gratitude, the hard work and commitment of all Committee members.

In keeping with the President's charge that the Committee seek "advice from the Miami Tribe of Oklahoma," the chair and Cory Foster met with the Chief of the Miami Tribe to discuss a number of ideas generated by the total Committee at its first meeting and to ask his advice on issues of most importance to the Tribe. In addition, the minutes of each meeting were shared with the Chief of the Miami Tribe. We have provided estimated costs and possible sources of funding, and suggested implementation responsibilities where possible. In addition, we suggest implementation timetables for some recommendations and indicate that several recommendations are for long-term program development. Unless indicated, all other recommendations should be part of short-term program development strategy.

The Committee on Relationships Between Miami University and the Miami Tribe of Oklahoma, having considered a wide range of opportunities, recommends to the President the plan and recommendations included in this report. We urge the adoption of these recommendations. We believe that we have responded fully to the charge given us and that implementation of the recommendations will more closely bind the ties of the combined heritages of the Miami Tribe and Miami University, as well as provide education about other American Indian peoples. We, too, share the hope voiced by the Miami Tribe that Moneto will bless "our mutual and cherished heritage as long as the winds shall blow."

April, 1994

Myrtis H. Powell, Chair, and Vice President for Student Affairs
Turtle Burkybile, Undergraduate Student and Member, Miami Tribe of Oklahoma
Cara A. DeBuysser, Undergraduate Student and Vice President for Diversity Affairs, ASG
Cory K. Foster, Senior Associate Director, Alumni and Parent Programs
