FINANCIAL
AID 101
A GUIDE TO YOUR 2019-2020 FINANCIAL AID AWARD
A good value that pays dividends for a lifetime

Ranked among the top universities in the nation by PayScale.com, Miami University provides an outstanding return on investment. Miami students graduate faster, receive admission to medical and law school at rates much higher than the national averages, and earn impressive salaries after graduation.

FINANCIAL AID AWARDS

This guide helps students and their families understand their financial aid and other funding options. The enclosed award package outlines financial aid offered for the 2019-2020 academic year, and includes all available funds. Visit MiamiOH.edu/FinancialAid for instructions on how to finalize the award.

Cost of Attendance (COA) and Expected Family Contribution (EFC)

Miami University determines a student’s estimated Cost of Attendance (COA) based on the student’s campus, housing arrangements, residency, and enrollment status. COA includes direct costs that are billed to the student and indirect costs that are not billed to the student but for which they need to budget.

The Expected Family Contribution (EFC) measures a family’s ability to contribute to a student’s educational costs. The student provides information on the Free Application for Federal Student Aid (FAFSA) about the family’s income, assets, household size, and number of dependents in college. The U.S. Department of Education’s Central Processing System uses this information to calculate the EFC. The EFC doesn’t represent the amount the student will owe.

Financial Aid Eligibility

The eligibility for need-based aid is calculated using this formula:

Cost of Attendance (COA) - Expected Family Contribution (EFC) = Financial Need

Students must report any other aid they will receive, including fee waivers, athletic grant assistance, assistantships, tuition assistance, and scholarships from outside/other sources. Visit MiamiOH.edu/AdditionalAid for instructions on how to report additional aid.

Verifications is a federally mandated process in which Miami confirms the information reported on the FAFSA. Students selected for verification are required to provide Tax Return Transcripts, a 2019-2020 Verification Worksheet, and/or other financial documents. Students selected for verification will be notified by the Office of Student Financial Assistance and will not receive their federal aid until the verification process is complete. For more information about the verification process, please visit MiamiOH.edu/Verification.

Students may request a review of aid eligibility if the family’s financial situation changed after the student filed the FAFSA. This could result in the student being required to complete federal verification. To see if your circumstances qualify for review, please contact the One Stop.

Changes to Financial Aid Awards

There are numerous reasons a student’s financial aid awards may change. If a student’s financial aid changes, the student will receive notification that awards were revised. In some cases, aid that exceeds COA or financial need may have to be returned. This could result in the student owing a balance. Miami reserves the right to revise a financial aid award due to the following:

- Changes in available funding
- FAFSA adjustments
- Enrollment changes (add/drop classes)
- Housing plan or living arrangement changes
- Revisions affecting eligibility for awards
- Changes resulting from verification
- Additional sources of financial aid
- Residency and/or Miami campus changes
- Failure to maintain Satisfactionary Academic Progress

Students must report any other aid they will receive, including fee waivers, athletic grant assistance, assistantships, tuition assistance, and scholarships from outside/other sources. Visit MiamiOH.edu/AdditionalAid for instructions on how to report additional aid.

Submit FAFSA Annually

Students must complete a FAFSA and list Miami each year to be considered for all need-based scholarships, grants, and federal loans.

Apply at FAFSA.gov. School code 003077.

Incoming First-Year Students

Priority I Deadline: Dec. 1
Priority II Deadline: Feb. 1

Returning, Regional, Transfer, and Graduate Students

Feb. 1
SCHOLARSHIP AWARDS (GIFT AID)

Grants are financial aid awards that do not need to be repaid. Scholarship awards are typically based on merit or a combination of merit and need, such as academic excellence, talent, affiliation with various groups, or career aspirations.

General Scholarships

All new first-year students who are admitted to Miami University are considered for the many general scholarships we award to incoming students; no separate application is required. Award determinations will be based on the official testing and high school transcript information submitted to Miami University at the time of application. Additional scores for tests taken after December 1, 2018, will be considered for merit scholarship awards if received by February 1, 2019. Merit scholarships are only available to new, first-year students entering in the fall semester. New students admitted for spring semester aren’t eligible for merit scholarships. Scholarships outside of Miami may also be available. For more information on scholarships, visit MiamiOH.edu/Scholarships.

Miami Access Fellows

Miami Access Fellows is a program for Ohio residents. It is designed to help make Miami accessible to new, first-year, academically competitive students who meet income eligibility requirements. Students must either be admitted to the Oxford campus as a first-time freshman or be a dependent student approved for relocation from either the Middletown or Hamilton campus. To remain eligible for up to four years, students must continue to meet program requirements. There is no separate application for Miami Access Fellows. For more information, visit MiamiOH.edu/Access.

FEDERAL AND STATE GRANTS

Grants are financial aid awards that do not need to be repaid. Some of the grants available for eligible students are listed in the table below. Students must file a FAFSA each year in order to be considered for these grants. The amounts listed are based on full-time enrollment. If students are less than full-time, the grant amounts will be prorated. Visit MiamiOH.edu/Grants for more information.

EQUIV EDUCATIONAL LOANS (SELF-HELP)

Educational loans are a form of financial aid that must be repaid with interest. They have varying interest rates and repayment terms.

Miami University realizes that managing education costs can be challenging. Families should closely monitor loan debt, reduce expenses, determine the total amount of education debt they’re willing to accrue and repay, and borrow only what is needed. Please visit MiamiOH.edu/Loans to use the repayment estimator tool and for additional loan information.

To comply with the 2008 Higher Education Opportunity Act, Miami follows a Student Loan Code of Conduct. To access our Student Loan Code of Conduct, visit MiamiOH.edu/Loans.

Federal Direct Student Loans

Eligible students filing the Free Application for Federal Student Aid (FAFSA) will be considered for a Federal Direct Loan. Students can receive one or a combination of Subsidized and Unsubsidized loans.

Below are the requirements that must be completed before a federal student loan(s) will disburse to the student’s account:
1. Visit MiamiOH.edu/FinalizeAid for instructions on accepting Federal Direct Loans.
2. A first-time loan borrower must complete a Master Promissory Note (MPN) for the loan.
3. A first-time loan borrower must complete Entrance Counseling for the loan.

A Master Promissory Note (MPN) and Entrance Counseling may be completed at StudentLoans.gov.

After all requirements are complete, federal student loan funds will be disbursed to the student’s Bank account in accordance with Miami’s disbursement schedule. Annual loan limits are as follows:

- 1st year: $5,500 0-30 earned credit hours
- 2nd year: $6,500 31-63 earned credit hours
- 3rd & 4th year: $7,500 64+ earned credit hours

<td>Undergraduates, graduates, and parents of undergraduates.</td>
<td>FASTchoice or chosen lender's website (Visit MiamiOH.edu/Loans).</td>
<td>Loan programs vary. Check with the specific lender.</td>
</tr>
</tbody>
</table>

Federal Parent Loan (PLUS)

Parents of dependent students may apply to borrow funds through the Federal Direct PLUS Loan program at StudentLoans.gov. The borrower must be a natural parent, adoptive parent, or step-parent of the dependent student. Parents may borrow any amount up to the cost of attendance minus any other non-federal aid the student receives. Eligibility will be based upon a satisfactory credit check.

Private (Alternative) Loans

Private loans are often borrowed from a bank or other financial institution, and are not federally funded loans. A private student loan is in the student’s name, is subject to a credit check, and often requires a co-signer. In some instances, a private loan can be in a parent borrower’s name.

Students interested in private loans should thoroughly research lenders and choose the lender that best fits their needs. FASTChoice located on the One Stop website allows you to search private loan lenders. Miami students are currently using (not a preferred list). Miami will certify private loans from any lender. These loans will be disbursed to the student’s Bursar account. A student may borrow up to the cost of attendance minus any other aid the student receives.
FEDERAL WORK-STUDY AND STUDENT EMPLOYMENT

Miami is committed to employing students because it allows them to earn money to help pay for education-related expenses, helps foster responsibility, encourages time management, and offers opportunities for learning and skill development.

The two types of student employment at Miami University are Federal Work-Study and regular wage employment. Job classifications and wage rates are the same for each, but they are financed differently.

Federal Work-Study is a program based on need that provides part-time employment to students who need the earnings to help meet their costs of education and encourages students receiving work-study assistance to participate in community service activities. Many departments prefer to hire work-study students since federal funds contribute 65% of the student's wages and the employing department pays the remaining 35%. If a student indicated an interest in work-study on the FAFSA, filed the FAFSA by our Priority II Deadline of February 1, and is eligible, the student's award package may include work-study. Work-study funds aren't calculated in the student's Expected Family Contribution (EFC) on the upcoming year's FAFSA.

Regular wage employment is for students who want to work on campus but who are ineligible for Federal Work-Study. Employing departments pay 100% of the student's wages.

Students can review employment information and apply for jobs at MiamiOH.edu/StudentEmployment. University departments do their own hiring, and the student is responsible for finding a job. Work-study earnings are not credited to a student's Bursar account. Instead, students will receive a biweekly paycheck.

PAYING THE UNIVERSITY BILL

Students will receive an email to their Miami email account when their electronic bill statement is ready to view. Miami does not mail paper invoices. Students will receive the notification in mid-July for fall semester and early December for spring semester. The statement will include charges, payments, anticipated credits (including finalized financial aid), as well as any payments made through Miami's payment plan. Finalized financial aid aid for which a student has met all requirements, including entrance counseling, promissory notes, and appropriate credit hour enrollment. Work-study is excluded because it will not be credited to a student's Bursar account. For payment options and questions concerning the statement, visit MiamiOH.edu/BillPayment.

Current account information can be accessed at any time by logging in to My One Stop at MiamiOH.edu/OneStop.

Tuition Payment Plan Options

Miami partners with Tuition Management Systems (TMS) to offer payment plan options. These plans allow families to budget each semester's bill over a period of three or four months. Visit MiamiOH.edu/PaymentPlan for payment plan details.

Receiving Refunds

If a student's aid exceeds university charges, the student will receive a refund. Within 14 days after the credit appears on a student's account, a refund check will be mailed to the student's local address or directly deposited into a bank account the student provided through RedHawk Refunds. For more information and instructions on signing up for direct deposit through RedHawk Refunds, visit MiamiOH.edu/RedHawkRefunds. A student may use these funds to purchase books and supplies, pay rent, or other education related expenses.

If a student receives federal aid, the student is required to maintain satisfactory progress toward a degree. Satisfactory progress is based on three standards: completion rate, GPA, and/or program completion timeframe. For more information on the SAP policy and standards, visit MiamiOH.edu/SAP.

STUDENTS’ RIGHTS AND RESPONSIBILITIES

Access to Financial Aid Records — FERPA

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records, both financial and academic. For the student's protection, FERPA limits release of student record information without the student's consent. Students can allow parents or other individuals to access and view their information by visiting MiamiOH.edu/FERPA.

Satisfactory Academic Progress (SAP) Requirements

If a student receives federal aid, the student is required to maintain satisfactory progress toward a degree. Satisfactory progress is based on three standards: completion rate, GPA, and/or program completion timeframe. For more information on the SAP policy and standards, visit MiamiOH.edu/SAP.

Enrollment Requirements

Financial aid eligibility is determined by a student's enrollment status. A student's initial award is based on the assumption that the student will be enrolled full-time for the fall and spring. A student is required to notify Miami if enrollment is less than full-time. Visit MiamiOH.edu/EnrollmentChanges for more information.

Students are expected to complete 90% of the credit hours attempted each term for financial aid eligibility. A student is required to notify Miami if enrollment is less than full-time. Visit MiamiOH.edu/EnrollmentChanges for more information.

If a student changes enrollment prior to the end of the add/drop period, the student's enrollment will be frozen and the financial aid for the semester will be recalculated. Students will receive revised award notifications via Miami email.

Important note: At the end of the add/drop period, a student's enrollment will be frozen and the financial aid for the semester will be based on the number of credit hours for which the student is enrolled at that time. Students should be sure they are enrolled for all the classes they intend to take for fall and spring semesters by the end of the add/drop period for the fall term and by the end of the add/drop period for the spring term. Check the university’s 2019-2020 academic calendar for official dates. Please note, dates may not be available until February or March.

University Withdrawal

Prior to withdrawing from the university, the student should contact the Student Success Center to understand the outcomes. When students stop attending classes and don't notify Miami, that is considered an unofficial withdrawal. The U.S. Department of Education expects students using federal aid to complete all courses attempted. Students who receive federal aid and withdraw, or unofficially withdraw, could have their aid reduced or returned. Adjustments may be made to state and university awards and typically result in a balance due to the university. Withdrawing may also affect a student's Satisfactory Academic Progress and could jeopardize future federal aid eligibility. For more information, please visit MiamiOH.edu/EnrollmentChanges.
FINANCIAL AID TERMS

**Cost of Attendance:** The estimated cost of attending Miami University for one academic year which includes direct costs (expenses the student/family pays directly to the college), and indirect costs (expenses incurred as a result of attendance that the student/family may pay to a third party (merchant, landlord, etc.) other than the college).

**Educational Loans:** A form of financial aid that must be repaid with interest. Educational loans have varying interest rates and repayment terms. Students and/or parents are required to sign a promissory note when accepting an educational loan.

**Enrollment Level:** Level of the degree-granting program in which a student is enrolled. Basic levels of enrollment include: undergraduate (students seeking an associate's degree, a certificate, or a baccalaureate degree, post-baccalaureate (such as teacher certification), graduate (students working on a master's degree or professional degree); and post-graduate (such as students enrolled in a doctoral program). The amounts and types of financial aid a student is eligible for is determined, in part, by their enrollment level.

**Enrollment Status:** Academic workload (or course load), as defined by the institution, that a student is carrying for a defined academic period. This normally relates to the number of credit hours taken by a student during a given academic period.

Miami’s Enrollment Status Criteria is as follows:

<table>
<thead>
<tr>
<th>Enrollment Level</th>
<th>Undergraduate Student (credit hours)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-Time</td>
<td>12+</td>
</tr>
<tr>
<td>Three-Quarter-Time</td>
<td>9-11</td>
</tr>
<tr>
<td>Half-Time</td>
<td>6-8</td>
</tr>
<tr>
<td>Less-Than-Half-Time</td>
<td>Less than 6</td>
</tr>
</tbody>
</table>

**Expected Family Contribution (EFC):** A measure of how much the student and his or her family can be expected to contribute to the cost of the student’s education for the year. The EFC is calculated according to a formula specified in the law and is based upon the information provided by the student and his or her family during the FAFSA filing process.

**Federal Direct Student Loan:** Loan funds provided to the student by the U.S. Department of Education, through the school. Repayment of principal begins six months after the borrower ceases to be a student on at least half-time basis. There are two types of Federal Student Direct Loans: subsidized and unsubsidized. Students with financial need qualify for a subsidized loan, and the government pays the interest on the loan while the student remains enrolled at least half time. Students who do not demonstrate financial need qualify for an unsubsidized loan and interest accrues while the student is in school. Students must complete Entrance Counseling and the Master Promissory Note to receive disbursements. Students must complete the Free Application for Federal Student Aid (FAFSA) annually for awarding consideration.

**Federal Parent Loan (PLUS):** Loan funds provided to parents by the U.S. Department of Education, through the school. This federal program allows parents with no adverse credit history to apply for up to the Cost of Attendance each year, less any financial aid. To be eligible, the student must be enrolled at least half-time in an eligible program of study. Repayment of principal and interest begins 60 days after the loan is fully disbursed with deferment and forbearance options available. Must complete the Free Application for Federal Student Aid (FAFSA) and a loan application annually for awarding consideration.

**Private (Alternative) Loan:** A loan from a commercial, state-affiliated or institutional lender used to pay for up to the annual cost of education, less any financial aid received. Private loans usually require the applicant to be creditworthy or have a co-signer and have varying interest rates, fees and repayment options. Repayment of interest (and often principal) generally begins immediately, with some lenders offering deferment options for in-school periods.

**Scholarship:** A type of gift aid awarded to the student that does not need to be repaid. Scholarship awards are typically based on merit or a combination of merit and need, such as academic excellence, talent, affiliation with various groups, or career aspirations. To be eligible for renewal of certain scholarships, the student may be required to maintain a specific Grade Point Average (GPA), enrollment status or major. Students must complete the FAFSA to be considered for need-based aid.

**Self-Help Aid:** Financial aid in the form of loans or student employment. Loans can be used to pay the remaining net costs after gift aid is deducted. Student employment earnings (including Work-Study awards) are not deducted from billed costs but can be used to help you cover indirect costs and are paid in the form of wages to students.

**Out-of-pocket Cost:** Difference between the cost of attendance and all gift aid. Out-of-pocket cost can be covered through a variety of sources, including: savings, income and educational loans.

**Verification:** A process to confirm the accuracy of data provided by the applicant on the FAFSA. In order to complete the verification process, students are required to provide certain documents to the school for review.
MIAMI RESOURCES

One Stop
The One Stop provides the most common student services into a single office for your convenience. Contact the One Stop for assistance with registration, enrollment, financial aid, billing, payment, and student records. Visit MiamiOH.edu/OneStop for driving directions, office hours, and other information.
