VISIT MIAMI FSB AND GLOBAL INITIATIVES TABLES IN THE HALL OF FAME

Miami University's Global Initiatives office, with the office of Study Abroad, partner with outside study abroad organizations to provide study abroad programs that include international internship opportunities around the world. These experiences are typically for credit, but are often unpaid due to visa restrictions.

Farmer School of Business Australia Internship

This unique program consists of three weeks of coursework, then each student is placed in an 8-week internship in Sydney to immediately put theories from the classroom into practice. You will be based in the oldest, largest, and most diverse city in Australia - Sydney. The culture, thriving economy, and dazzling beaches will captivate you. The program will end with the group traveling up the eastern coast of Australia to visit the vibrant town of Cairns, with the Great Barrier Reef and the world's most popular diving sites at its doorstep.
