FARMER SCHOOL
OF BUSINESS

Beyond ready
for the future

Congratulations on your acceptance to the **Farmer School of Business!**

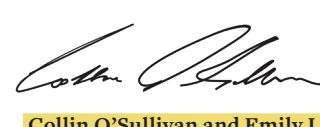

Your talents and hard work have given you the opportunity to learn and grow with us. As Farmer School students, we have had an unbelievable four years here, and you have the chance to do the same.

The Farmer School has given us the ability to lead organizations, study abroad for an entire semester, participate in global case competitions, develop strong relationships with faculty and staff, and secure terrific internships and full-time jobs.

We know firsthand how Miami will help you discover your passion from among a wide variety of academic areas. The expert Farmer School faculty will make your success their top priority, just like they did ours.

We hope you choose to attend Miami. We believe it was the best decision we ever made.

Collin O'Sullivan and Emily Leach

Business Student Advisory Council
President and Vice President

Your talents and ambitions demand MBA-level resources

At the Farmer School of Business (FSB), we focus on undergraduates — giving you the personal attention and resources that most business schools reserve for their graduate students. Whether it's teaching you how to operate a Bloomberg Terminal, diagnose an inefficient supply chain, or craft an airtight marketing plan, our faculty will provide you with a powerful support system that's anchored in their expertise and worldwide connections.

You can rely on our best professors to serve as lifelong mentors and advocates.

Anne Farrell
Professor, Accountancy

In an age when business people are faced with a glut of data and a myriad of new technologies, Anne Farrell works to help them make better decisions. She partners with neuroscientists and undergraduate students on research that examines how the human brain functions in real business situations.

Fadel Megahed
Assistant Professor, Information Systems and Analytics

While his research is in the area of data-driven decisions, Fadel Megahed's passion lies in how to make the world safer. He leads a team of investigators, including undergraduate students, in a project looking specifically at truck drivers and fatigue.

Prepare for everything

**EVEN FOR JOBS THAT
DON'T YET EXIST**

You're going to need versatility and wide-ranging expertise to excel in the future. That's why the Farmer School devised the First-Year Integrated Core Curriculum (FYIC). It's a forward-thinking program of study for first-year students and it's the first of its kind among the top 50 business schools.

↓
In all of your FYIC
courses, you'll
work in teams on
real-world projects

— analyzing data, brainstorming entrepreneurial solutions, honing your communications skills, and pitching ideas to experts.

“Students from Miami and the Farmer School of Business are client-ready from day one. Miami is one of the top schools in terms of how many are partners at Ernst & Young.”

David Meyer
PARTNER, EY

Laura Mena '20
Marketing, Entrepreneurship

After launching her own consumer goods startup in high school, Laura Mena became passionate about building early-stage companies. Now, she's the managing director of Miami's student-led venture capital fund, RedHawk Ventures, which makes investments in companies founded by students and alumni.

J'Quaan Waite '20
Finance

From serving in the Multicultural Business Association to scouting for the women's basketball team, J'Quaan Waite epitomizes the well-rounded Farmer School student. He has interned twice for General Electric and, upon graduation, he will begin his career with GE Aviation — an appropriate spot for such a high flyer.

Farmer Grads
go places,
mostly up

Your education at Miami goes beyond the classroom. You'll learn by interning at top firms around the U.S. and traveling abroad to gain international expertise. Exercise your leadership skills and make valuable connections by choosing from 25 business-specific organizations and five Farmer School honorary societies.

**Dinesh
Paliwal '83**
President and CEO,
Harman International

As an executive, Dinesh Paliwal leads a global innovator of electronic products. As a humanitarian, he's recognized for helping create long-term change in the developing world. For his "boundless compassion, unique talents, and selfless generosity," he received the 2017 Ellis Island Medal of Honor.

**Lynn
Good '81**
Chairwoman, President,
and CEO, Duke Energy

Fortune magazine listed Lynn Good as 11th among the "Most Powerful Women in Business" and Forbes magazine called her one of the "World's 100 Most Powerful Women." She began her utility career in 2003 with Cincinnati-based Cinergy, which merged with Duke Energy three years later.

“The students at the Farmer School have a great understanding of the full spectrum of how business works, so it makes them really appealing for consulting.”

Dennis Kontorovich
BUSINESS DEVELOPMENT FELLOW,
ADURO ENERGY
