Independent Accountant's Report on Applying Agreed-Upon Procedures

RSM US LLP

Dr. Gregory P. Crawford, President
Miami University

We have performed the procedures enumerated below related to Miami University's compliance with National Collegiate Athletic Association (NCAA) Bylaw 3.2.4.17 (the specified requirements) during the period July 1, 2021 to June 30, 2022. We have performed the procedures included in the NCAA Bylaw 3.2.4.17 and enumerated below. Miami University's management is responsible for its compliance with those requirements.

Miami University's management has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of assisting users in determining whether the entity complied with the specified requirements. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows:

Agreed-Upon Procedures Related to the Statement of Revenues and Expenses and Other Reporting Items

- A. We obtained the Department's Statement of Revenues and Expenses (Statement) for the year ended June 30, 2022, as prepared by management and included herein as Exhibit A. We computed, without exception, the mathematical accuracy of the Statement. We compared the individual line items in the "Total" column to the respective amounts recorded in the Intercollegiate Athletic Department of Miami University's (the Department) general ledger for the year ended June 30, 2022 and found them to be in agreement. If a specific reporting category was less than 4% of the total revenue and expense, no procedures were performed for that specific category.

No exceptions were noted as a result of applying these procedures.

- B. We obtained a variance analysis prepared by the management of the Department. We compared each major revenue account over 10% of the total revenues to prior period amounts and budget estimates. We obtained and documented an understanding of any variances greater than 10% which are as follows:

Student Fees – We noted a variance greater than 10% compared to the prior period. We noted, through inquiry of the Department, student fees increased due to a return to pre-pandemic activity. In the previous year, a decrease in student fees occurred due to lost revenues as a result of the COVID-19 Pandemic.

Direct Institutional Support – We noted a variance greater than 10% compared to the prior period. We noted, through inquiry of the Department, direct institutional support decreased due to less additional funds received and allocated to athletics in the form of COVID-19 pandemic relief compared to the previous year.

There were no additional variances greater than 10% compared to the budget estimates.

For additional information, reference the supplement to the Agreed-Upon Procedures report.

Agreed-Upon Procedures Related to Revenues

Ticket Sales

1. This specific reporting category is less than 4% of the total revenue, therefore, no procedures were performed.

Student Fees

- 2-4. We compared student fees reported in the Statement for the year ended June 30, 2022 to the University's general fee and allocation of the general fee to each University department and recalculated totals. We obtained the University's methodology for allocating student fees to the intercollegiate athletics department and recalculated the totals based on this methodology. The Department reports an allocation of student fees countable as generated revenue. We recalculated totals for each sport based on their methodology provided and agreed the calculation to student fee reports.

No exceptions were noted as a result of applying these procedures.

See number 58 below for procedures performed.

No exceptions were noted as a result of applying these procedures.

- 9-10. We obtained from the Department the general ledger detail of all guarantees, which includes settlement reports for away games and contractual agreements recorded by the University during the year ended June 30, 2022. - 17-18. We obtained from the Department the general ledger detail of all conference distributions recorded by the University during the year ended June 30, 2022. We then selected the largest distribution recorded in the general ledger. For this item, we agreed the amount recorded to supporting documentation (cash receipt) for the distribution. We compared the total revenues from "Conference Distributions" per the Statement to the respective account in the general ledger for the year ended June 30, 2022 and found it to be in agreement.

We noted, through inquiry of the Department, coaching and support staff salaries, benefits and bonuses increased due to return to pre-pandemic staffing levels. In the previous year, there were eliminated positions and furloughs due to the COVID-19 pandemic. We also noted a variance greater than 10% compared to the budget estimates. We noted, through inquiry of the Department, more bonuses were paid to staff for additional duties performed for multiple sports, which was due to constraints on staffing levels due to the COVID-19 pandemic.

There were no additional variances greater than 10% compared to the budget estimates.

For additional information, reference the supplement to the Agreed-Upon Procedures report.

Athletics Student Aid

- 29-32. We obtained a listing of student athletes who received financial assistance during the year ended June 30, 2022 from management. Management used the NCAA's Compliance Assistant (CA) software to prepare the athletic aid detail. We haphazardly selected 10% of the total student athletes from the listing. We obtained a detail of each selected student's account and the financial aid award letter. We inspected each student account selected and agreed their student account information per the University to the information reported in the NCAA's CA software. We noted, through inquiry of the Department, the variances are due to changes in in-state and out-of-state student athlete grants-in-aid year over year as well as COVID-19 pandemic exceptions.

- F. Obtain the Department's Sports Sponsorship and Demographics Forms Report for the reporting year. Compare that the countable sports reported by the Department meet the minimum requirements, set forth in Bylaw 20.9.6.3, for the number of contests and the number of participants. We tested the student aid files selected in step 31, to the report of all student athlete who received Pell Grant awards. Note 6. Capital Assets

Land, buildings, and equipment are recorded at cost at the date of acquisition. In the case of gifts or other donated capital assets, they are recorded at acquisition value. Acquisition value is the price that would be paid to acquire an asset in an orderly market transaction at the acquisition date. Acquisition value is a market-based entry price. Intangible assets include patents, trademarks, land rights and computer software. Land, collections of works of art and historical treasures are capitalized but not depreciated. Any collection that is not capitalized is charged to operations at the time of purchase. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets. Estimated useful lives are 50 years for buildings; 25 years for infrastructure, library books and publications; and land improvements; 20 years for improvements to buildings; and 5 to 7 years for equipment, vehicles, and furniture. Intangible assets are depreciated based on the estimated life of each asset. The University's capitalization threshold is the lower of 5 percent of the original building cost or \$100,000 for building renovations and \$5,000 for other capitalized items. The capitalization threshold for intangible assets is \$100,000 except for internally generated computer software which has a threshold of \$500,000. The University does not segregate athletics-related assets from other assets held by the University and therefore depreciation expense is not reflected in the Statement.
