Miami University New Alumni Success Project
2014 - 2015 Bachelor's Degree Recipients
College of Professional Studies and Applied Sciences

Executive Summary

- The Office of Institutional Research and the Office of the Regional Dean collaborated to collect placement information for alumni who graduated in 2014-15 with a bachelor's degree from the College of Professional Studies and Applied Sciences (CPSAS).
- Educational and career placement data were collected from numerous sources, including the New Alumni Online Survey, the New Alumni Phone Survey, public LinkedIn profiles, the Graduation Survey (conducted by Institutional Research), the National Student Clearinghouse, and Miami University's Banner data system, and are based on alumni placement as of fall 2015.
- Educational placement data were found for 100% of alumni while career placement data were found for 61% of alumni (excluding those who were enrolled in graduate/professional school). Information on alumni's current state/country of residence was also obtained for 74% of alumni.

Combined Educational and Career Placement

- Combined, 97.5% of 2014-15 alumni were either employed or enrolled as of fall 2015. In one of the programs (Criminal Justice), the placement rate was 100%.

Educational Placement

- 8.8% of alumni were currently enrolled in school, including 5.0% who were enrolled at the master's level, 0.3% who were enrolled in a doctoral level program, and 2.2% who were enrolled in additional undergraduate study.
- Health Information Technology alumni were most likely to enroll in school after graduating from Miami, with 19.0% enrolled, while Nursing alumni were least likely to enroll in school after graduating from Miami (4.0% enrolled).

Career Placement

- Among alumni who were not enrolled in graduate or professional school, 97.2% were currently employed, including 1.1% who were self-employed or running their own business.
 - This employment rate is a large increase over last year, when the CPSAS placement rate was 86.3%. For previous year's data and reports, visit www.miamioh.edu/oir/Surveys/Post-Graduation.
- 69.6% of alumni were working full-time, 4.4% were working part-time, and 23.8% had an unknown full-time/part-time status.
- 74.6% of employed alumni had worked for their current employer previously, most commonly as a full-time employee (51.8%) or as a part-time or seasonal employee (15.8%).
- 78.2% of employed alumni were working in a position that required a college degree. 57.7% were in a position that required a bachelor's degree while 18.3% were working in a position that required an associate's degree.

- Among the previous year's graduating class, only 73.6% of employed alumni were working in a position that required a college degree.
- For a complete list of employer names, see the Appendix.

State/Country of Residence

- 96.1% of alumni were living in Ohio while 3.4% were living in a different U.S. state (including Arizona, Georgia, Illinois, Maryland, North Carolina, and Tennessee).
- Less than 1.0% of alumni were living outside the United States.

Footnotes

¹ Due to the small size of the Criminal Justice (N = 31) and Health Information Technology (N = 21) graduating classes, large percentage differences may represent a very small number of students (e.g., 1-2 students).

² The "knowledge rate" indicates the percentage of the graduating class for whom we have data, regardless of the source of the data.

³ Because participants were allowed to select more than one option, responses may total more than 100%.

⁴ All items in the "Career Placement" section exclude from analyses individuals who are enrolled in graduate or professional school. This methodology is consistent with the methodology used in the Miami 2020 Plan dashboard indicators.

⁵ Items marked NA are not available because the response size was too small to allow for analyses ($n < 10$).
