To decrease the number of questions asked of participants, the following methods are used:

**Rotation:** The question is asked every other survey administration. "Even/odd" refers to the year in which the academic year ends (e.g., 2017-2018 is an even year).

**Display:** The question is asked only if it is relevant to participants (e.g., only participants who indicate that they are employed receive follow-up questions about their job).
