Minors on Campus

Jul 11, 2022

Scope: Who is Covered by this Policy?

Employees, Students, Vendors and Visitors

Purpose of Policy

As part of its educational mission, Miami University sponsors many programs and activities that are specifically for minor children or in which minor children participate. The University also makes its facilities available to outside groups and organizations that conduct programs that are directed towards or that include minor children. Miami University is committed to providing a safe environment for all members of the University community as well as all those who participate in programs and activities on campus or who use or visit campus facilities. Because minor children are a particularly vulnerable population, this Policy has been adopted to address the special concerns when minor children participate in University sponsored activities or other activities utilizing University Facilities.

While the primary purpose of this Policy is to protect minor children, adherence to this Policy will also serve to protect members of the University community and other adults participating in programs involving minors from false allegations of abuse.

It should be noted that while this Policy includes general guidelines for the protection of minors at events to which the general public is invited (such as entertainment and sporting events), it is the University’s expectation that parent(s) or legal guardian(s) shall be primarily responsible for providing appropriate supervision and oversight of minors in these situations.
This Policy is to be used in conjunction with other University policies concerning specific areas involving minors, such as (Employment of Minors and Minors in Laboratories and Workshops).

Definitions

Minor

A person under the age of eighteen (18) who is not enrolled or accepted for enrollment at the University. Minors participating in pre-enrollment overnight programs visits sponsored by the Office of Admissions are not covered by this policy. Students who are “dually enrolled” in University Programs while also enrolled in high school are also not included in this Policy unless such enrollment includes overnight housing in University Facilities.

University Facilities

Facilities owned by, or under the control of, the University.

University Programs

University Programs are those activities offered or sponsored by academic or administrative units of the University that are specifically designed for participation by minors, including by way of illustration mentoring and education programs, workshops, sport camps, academic camps, conferences, pre-enrollment visits and similar activities.

Non-University Programs

Those Programs specifically designed for participation by minors that are offered by non-University groups using University Facilities through a contract, license or other written agreement with the University. For purposes of this policy, Non-University Programs also include programs and visits by elementary and high school students as part of the school’s curriculum where the students are accompanied and supervised by their teachers or school-supplied chaperones, even though Miami may does not provide some or all of the activities or programs provided to students during the visit (e.g. field trips to tour a campus department or museum).

Program Support Services

Those facilities and services, such as housing, dining and recreational facilities, that are available for use by University and Non-University Programs.

Sponsoring Entity
In the case of a University Program, the academic or administrative unit of the University that offers the University Program. For Non-University Programs, the entity, organization or person that is contracting for the use of University Facilities for the Non-University Programs.

**Responsible Adult**

Individuals, age 18 and older, paid or unpaid, who supervise, chaperone, or are otherwise responsible for or oversee minors in University and Non-University activities. This includes but is not limited to faculty, staff, volunteers, graduate and undergraduate students, interns, employees of temporary employment agencies, and independent contractors/consultants. The Responsible Adults’ roles may include positions as counselors, chaperones, coaches, instructors, and the like.

**One-On-One Contact**

Personal, unsupervised interaction between an adult and a minor participant without at least one other adult, parent or legal guardian being present. For purposes of this definition, another adult will be deemed “present” if he/she is within line of sight of the adult interacting with the minor.

**Buddy System**

An operating policy in which each minor participant is assigned one or more “buddies” for the duration of any Program. Minor participants engage in all aspects of the Program with their assigned buddy (or buddies) to enhance participant safety and the ability of the Program to continuously account for all participants.

**Policy**

**Protection of Minors On Campus Who Are Not Participating in Programs**

Miami’s campuses and facilities are generally not an appropriate environment for minors unless they are matriculated students or enrolled in a University Program specifically designed for children and appropriately supervised by their parent(s) or legal guardian(s) or by adults with the proper training and credentials. Moreover, certain locations, such as laboratories, shops, mechanical rooms, power plants, garages, food preparation areas, areas containing power tools or machinery with exposed moving parts, and other “safety sensitive” areas are inherently hazardous to any untrained or unauthorized persons and especially children. Accordingly, the following policies shall apply to any minor present at a University facility who is not participating in a Program:
1. No minor under the age of 14 may be left alone on campus at any time for any reason; the Miami University Police Department (MUPD) will be notified if a minor, under the age of 14, is left unattended on campus or at an athletic or other University event. Line of sight supervision of such minors by a parent or guardian is required at all times. The parent or guardian must assure the minor under the age of 14 is not disruptive to others and any such situation should be brought to the attention of the parent or guardian. The University retains the right to require those visitors who are unwilling or unable to exercise appropriate supervision over minors to leave University Facilities. Minors 14 and above shall be held to the same standards of conduct that apply to all other members of the University community.

2. Students may not “babysit” minors, including relatives in residence halls or other University facilities. Minors should not accompany students to class. This restriction does not apply to University Programs, such as those involving campus visits by high school students.

3. Except as part of a University Program, such as “Bring Your Child to Work Day,” or brief visits, minors should not accompany a parent or guardian to work. If in the event of unforeseen circumstances, a parent or guardian must bring a child to campus then the following rules apply:

   4.a. The supervisor or department chair should be notified of the child’s presence.

   5.b. Children may not be left unattended or with another employee at any time.

   6.c. Children must be in the physical presence of and under the control of their parent/guardian at all times.

   7.d. Children cannot interrupt or interfere with the employee’s responsibilities and may not disrupt any University function.

   8.e. Children may not ride in any University motorized vehicles, including golf carts.

   9.f. Children who are ill must not be brought to campus, except for the purpose of treatment at the Miami Convenient Care Clinic.

   10.g. Parents and guardians who bring children to campus assume and accept full responsibility for all aspects of the child’s behavior, including safety, unauthorized or inappropriate use of University resources, any damages to persons or to property. Children may not have access to any confidential or FERPA protected information or meetings, etc.
Minors, unless enrolled in a Program that requires their presence in, are absolutely restricted from “safety sensitive” areas such as laboratories, machine shops, mechanical rooms, steam plant, construction areas, maintenance garages, animal care or research facilities, food preparation areas, security areas and areas from which the general public or students are denied access.

1. Miami does not provide emergency child care, and no University space may be used as an alternative to child care, including but not limited to libraries, classrooms, laboratories, residence halls, lounges, restaurants or any other public space. Students are expected to have appropriate child care arrangements. An instructor may give permission for a non-resident student who has an emergency to bring a minor to a non-laboratory class on a per-incident basis if:

   2-a. ______ the child is not ill; and
   
   3-b. ______ the child is in the physical presence of and under the control of their parent/guardian at all times. Children cannot interrupt or interfere with the student’s responsibilities and may not disrupt any University class or function.

A dean, head of a department, Vice President, Director of Intercollegiate Athletics or University police officer may deny permission for any child to be on campus if the child has been left unattended, is disruptive or for other violations of this policy.

Protection of Minors in University Programs

All University Programs shall complete and file a Registration of Programs and Activities Involving Minors Form with the Miami Police Department not less than thirty (30) days prior to the first scheduled date of participation by minors.

University Programs where the parent(s), legal guardian(s) or other adult(s) remain with the minors for the entire program maintaining care, custody, and control of the minors require a photo release and assumption of risk form from parent(s) or legal guardian(s).
