

First Destinations

Overview of 2020 - 2021 Graduates by Degree Type and Campus

**Miami
University**

First Destinations Executive Summary 2020-2021 Oxford Campus Bachelor's Graduates

Methodology

The First Destinations report provides placement information on students who graduated during the 2020-2021 academic year. Graduates must be employed, serving in the military, serving in a volunteer or service program, or enrolled in additional studies by Dec. 31, 2021 in order to count as successfully placed.

First Destinations data are based on a variety of data sources, including online surveys, phone surveys, national databases, data from Miami University offices, direct employer confirmation, and/or public sources. Full details on the methodology are available upon request.

Placement results are based on graduates' primary activity after graduation and align with National Association of Colleges and Employers (NACE) First Destination Survey guidelines.

Results

Response data were obtained for 2,955 graduates out of 3,923 total (75.3% knowledge rate¹).

The overall success rate² for the graduating class is 98.1%, compared to 96.6% last year (1.5% increase).

- According to NACE, nationally 82.4% of the previous year's bachelor's graduates (2019-2020) were successfully placed.
- Comparison data for the current graduating class will be available from NACE in October and can be shared upon request.

62.3% of the graduating class are employed full-time, with an average salary³ of \$57,876.

Among those who are employed (full-time or part-time):

- 76.2% are employed in their field of study.
- 48.7% worked for their employer previously.
- 90.4% are employed in a position that requires a college degree.

23.8% of graduates are enrolled in graduate or professional school while 1.9% are pursuing additional undergraduate study. An additional 1.8% are continuing their education, but did not specify what level of education they were pursuing.

48.1% of graduates live in Ohio while 51.2% live in a different U.S. state. The remaining graduates live in a foreign country (0.8%).

Footnotes

¹ The "knowledge rate" indicates the percentage of the graduating class for whom we have placement data.

² The overall success rate identifies the total percentage of alumni who are employed, engaged in military service, engaged in a volunteer/service program, or who are continuing education. Consistent with the National Association of Colleges and Employers (NACE) First Destination guidelines, the success rate calculation excludes alumni who are not seeking employment or education. However, alumni who are not seeking employment or education are included when calculating the individual primary activities (e.g., percent employed, percent continuing education).

³ Salary data reported by NACE are based solely on alumni whose primary activity is classified as "Standard Employment FT" while these overviews provide a broader view allowing the inclusion of alumni who are employed in other full-time positions (e.g., entrepreneur FT, freelance FT, faculty tenure-track, etc.).
