

## **First Destinations Executive Summary 2022-2023 Master's Graduates**

### **Methodology**

The First Destinations report provides placement information on students who graduated during the 2022-2023 academic year. Graduates must be employed, serving in the military, serving in a volunteer or service program, or enrolled in additional studies by Dec. 31, 2023 in order to count as successfully placed.

First Destinations data are based on a variety of data sources, including online surveys, phone surveys, national databases, data from Miami University offices, direct employer confirmation, and/or public sources. Full details on the methodology are available upon request.

Placement results are based on graduates' primary activity after graduation and align with National Association of Colleges and Employers (NACE) First Destination Survey guidelines.

### **Results**

Response data were obtained for 433 graduates out of 883 total (49.0% knowledge rate<sup>1</sup>).

The overall success rate<sup>2</sup> for respondent of the graduating class is 100%, compared to 99.7% last year (0.3% increase).

- According to NACE, nationally 90.2% of the previous year's master's degree graduates (2021-2022) were successfully placed (46.4% knowledge rate).
- Comparison data for the current graduating class will be available from NACE in October and can be shared upon request.

58.9% of the graduating class are in standard full-time employment, with an average salary<sup>3</sup> of \$65,435.

## Footnotes

<sup>1</sup> The "knowledge rate" indicates the percentage of the graduating class for whom we have placement data.

<sup>2</sup> The overall success rate identifies the total percentage of alumni who are employed, engaged in military service, engaged in a volunteer/service program, or who are continuing education. Consistent with the National Association of Colleges and Employers (NACE) First Destination guidelines, the success rate calculation excludes alumni who are not seeking employment or education. However, alumni who are not seeking employment or education are included when calculating the individual primary activities (e.g., percent employed, percent continuing education).

<sup>3</sup> Salary data reported to NACE are based solely on alumni whose primary activity is classified as "Standard Employment FT" and do not look at alumni who are employed in other full-time positions (e.g., entrepreneur FT, freelance FT, faculty tenure-track, etc.).
