

First Destinations Executive Summary

2023-2024 Oxford Campus Bachelor's Graduates

Methodology

The First Destinations report provides placement information on students who graduated during the 2023-2024 academic year. Graduates must be employed, serving in the military, serving in a volunteer or service program, or enrolled in additional studies by Dec. 31, 2024 in order to count as successfully placed.

First Destinations data are based on a variety of data sources, including online surveys, phone surveys, national databases, data from Miami University offices, direct employer confirmation, and/or public sources. Full details on the methodology are available upon request.

Placement results are based on graduates' primary activity after graduation and align with National Association of Colleges and Employers (NACE) First Destination Survey guidelines.

Results

Response data were obtained for 2,228 graduates out of 3,692 total (60.3% knowledge rate¹).

The overall success rate² for respondents of the graduating class is 98.2%, compared to 99.7% last year (1.5% decrease).

- According to NACE, nationally 84.7% of the previous year's bachelor's graduates (2022-2023) were successfully placed (55.8% knowledge rate).
- Comparison data for the current graduating class will be available from NACE in October and can be shared upon request.

57.3% of the graduating class are in some form of full-time employment, with an average salary³ of \$69,235.

Footnotes

¹ The "knowledge rate" indicates the percentage of the graduating class for whom we have placement data.

² The overall success rate identifies the total percentage of alumni who are employed, engaged in military service, engaged in a volunteer/service program, or who are continuing education. Consistent with the National Association of Colleges and Employers (NACE) First Destination guidelines, the success rate calculation excludes alumni who are not seeking employment or education. However, alumni who are not seeking employment or education are included when calculating the individual primary activities (e.g., percent employed, percent continuing education).

³ Salary data reported to NACE are based solely on alumni whose primary activity is classified as "Standard Employment FT" and do not look at alumni who are employed in other full-time positions (e.g., entrepreneur FT, freelance FT, faculty tenure-track, etc.).
