**Independent Accountant's Report on Applying Agreed-Upon Procedures**

Dr. Gregory P. Crawford, President  
Miami University

We have performed the procedures enumerated below, which were agreed to by Miami University (the University), solely to assist in evaluating whether the accompanying Statement of Revenues and Expenses (Statement) and related notes to the Statement of the Intercollegiate Athletics Department of the University (the Department) is in compliance with the National Collegiate Athletic Association (NCAA) Bylaw 3.2.4.15 for the year ended June 30, 2019. Miami University's management is responsible for the Statement, notes to the Statement, and the Statement's compliance with those requirements. The sufficiency of these procedures is solely the responsibility of the parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

**Agreed-Upon Procedures Related to the Statement of Revenues and Expenses and Other Reporting Items**

The procedures that we performed and our findings are as follows:

- A. We obtained the Department's Statement of Revenues and Expenses (Statement) for the year ended June 30, 2019, as prepared by management and included herein as Exhibit A. We computed, without exception, the mathematical accuracy of the Statement. We compared the individual line items in the "Total" column to the respective amounts recorded in the Department general ledger for the year ended June 30, 2019 and found them to be in agreement. If a specific reporting category was less than 4% of the total revenue and expense, no procedures were performed for that specific category.

No exceptions were noted as a result of applying these procedures.

- B. We obtained a variance analysis prepared by the management of the Department. We compared each major revenue account over 10% of the total revenues to prior period amounts and budget estimates. We obtained and documented an understanding of any variances greater than 10% which are as follows:

There were no variances that met the threshold noted above. Therefore, no additional procedures were performed.

## **Agreed-Upon Procedures Related to Revenues**

### *Ticket Sales*

1. This specific reporting category is less than 4% of the total revenue, therefore, no procedures were performed.

We obtained a detail of each selected student's account and the financial aid award letter. We inspected each student account selected and agreed their student account information per the University to the information reported in the NCAA's CA software. If the student received a Pell Grant, we noted the value of the Pell Grant was excluded in student athletic aid expense and that the student's total number and value of Pell Grants reported for revenue distributions purposes were included in the NCAA Membership Financial Reporting System.

No exceptions were noted as a result of applying these procedures.

- E. Obtain and compare the current year grants-in-aid revenue distribution equivalencies to the prior year reported equivalencies in the Membership Financial report submission. Inquire and document any variances +/-4%.

We obtained compared the current year grants-in-aid revenue distribution equivalencies to the prior year reported equivalencies reported in the Membership Financial report submission and noted variances greater than +/- 4% for the following sports men's baseball, basketball, golf, ice hockey, swimming and diving, track and field and cross country, women's baseball, field hockey, soccer, softball, swimming and diving, tennis and volleyball. We noted, through inquiry of the Department, the variances are due to changes in in-state and out-of-state student athlete grants-in-aid year over year. Other than the exceptions noted above, no other exceptions were noted as a result of applying this procedure.

- F. Obtain the Department's Sports Sponsorship and Demographics Forms Report for the reporting year. Compare that the countable sports reported by the Department meet the minimum requirements, set forth in Bylaw 20.9.6.3, for the number of contests and the number of participants. Once countable sports have been compared, agree that the Department has reported these sports as countable for revenue distribution purposes within the NCAA Membership Financial Reporting System. If any discrepancies are identified they must be resolved within the NCAA Membership Financial Reporting System prior to the report being submitted to the NCAA. Obtain and agree the current year number of sports sponsored to the prior year reported total to the NCAA Membership Financial reporting System, inquire about any discrepancies and report the explanation in the AUP report.

No exceptions were noted as a result of applying these procedures.

- G. For Pell Grants, agree the total number of Division I student-athletes who, during the academic year, received a Pell Grant award (e.g. Pell Grant recipients on full grant-in-aid, recipients on partial grants-in-aid and recipients with no grants-in-aid) and the total value of these Pell Grants reported in the Departments financial aid records, to the NCAA Membership Financial Reporting System, of all student athlete Pell Grants. We tested the student aid files selected in step 31, to the report of all student athlete who received Pell Grant awards. Obtain and agree the current year Pell Grants total to prior year reported total to the Membership Financial Report submission, inquire and document any variance that is +/- 20 grants.

#### **Note 1. Basis of Presentation**

The accompanying Statement of Revenues and Expenses of the Intercollegiate Athletics Department of Miami University (the Statement) has been prepared in accordance with accounting principles generally accepted in the United States of America and the NCAA Agreed-Upon Procedures guidelines. The purpose of the Statement is to present a summary of revenues and expenses of the Intercollegiate Athletics Department of Miami University (the Department) for the year ended June 30, 2019 on the accrual basis. Revenues are recorded when earned. Expenses are recorded in the period in which the related liability is incurred. Because the Statement presents only a selected portion of the activities of Miami University (the University), it is not intended to and does not present the financial position, changes in financial position or revenues and expenses for the year then ended for the University as a whole.

The amounts in the accompanying Statement were obtained from the University's trial balance, which is maintained on an accrual basis. All revenues and expenditures directly related to various sports were disclosed as such, except compensation and benefits paid by third parties, which were not applicable. The University records depreciation on physical plant and equipment; however, depreciation is not part of the statement of revenues and expenses.

#### **Note 2. Other Sports**

Other sports include men's baseball, men's golf, men's swimming, men's track and cross country, women's field hockey, women's soccer, women's softball, women's swimming, women's tennis, women's track and cross country, women's volleyball, and women's skating.

#### **Note 3. Endowments, Pledges Receivable and Net Position**

For the year ended June 30, 2019, the University had \$19,324,789 of endowments and \$983,820 in pledges receivable dedicated to the sole support of athletics not reported in the Statement. #### **Note 4. Contributions**

Contribution revenue included in the Statement represent contributions given to the University's Intercollegiate Athletics Department based on donors' instructions.

#### **Note 5. Other Forms of Compensation**

The value of volunteer assistant coaching services, according to NCAA financial audit guidelines, should be reported as contributions and as salary expenditures. The University estimates that the value of volunteer assistant coaching services is not material to the Statement and, therefore, is not reflected in the Statement.

#### Note 6. Capital Assets

Land, buildings, and equipment are recorded at cost at the date of acquisition. In the case of gifts or other donated capital assets, they are recorded at acquisition value. Acquisition value is the price that would be paid to acquire an asset in an orderly market transaction at the acquisition date. Acquisition value is a market-based entry price. Intangible assets include patents, trademarks, land rights and computer software. Land, collections of works of art and historical treasures are capitalized but not depreciated. Any collection that is not capitalized is charged to operations at the time of purchase. Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets. Estimated useful lives are 50 years for buildings; 25 years for infrastructure, library books and publications; and land improvements; 20 years for improvements to buildings; and 5 to 7 years for equipment, vehicles, and furniture. Intangible assets are depreciated based on the estimated life of each asset. The University's capitalization threshold is the lower of 5 percent of the original building cost or \$100,000 for building renovations and \$5,000 for other capitalized items. The capitalization threshold for intangible assets is \$100,000 except for internally generated computer software which has a threshold of \$500,000. Interest on construction projects is capitalized until substantial completion of the project. The University does not segregate athletics-related assets from other assets held by the University and therefore depreciation expense is not reflected in the Statement.

The current year capitalized additions and deletions to facilities during the year ended June 30, 2019 are as follows:

	Additions	Deletions
