

# CURRICULUM IN ORGANISMAL AND CONSERVATION BIOLOGY

## DEPARTMENT OF BIOLOGY

### COURSES OFFERED:

<b>No. (credits)</b>	<b>Course Title</b>
115 (4)	Biological Concepts: Ecology, Evolution, Genetics, and Diversity
116 (4)	Biological Concepts: Structure, Function, Cellular, and Molecular Biology
204 (3)	Evolution of Plant Biodiversity: Genes to Biosphere
205 (4)	Dendrology
206 (3)	Evolutionary Biology
209 (3)	Fundamentals of Ecology
302 (4)	Plant Taxonomy
311 (4)	Vertebrate Zoology
312 (4)	Invertebrate Zoology
314 (4)	Plant and Fungal Diversity
320 (1-3)	Directed Research
351 (3)	Environmental Education: Focus on Natural History
395 (3)	Primate Biology and Behavior
407 (4)	Ichthyology
408 (4)	Ornithology
409 (4)	Herpetology
410 (4)	Mammalogy
411 (4)	General Entomology
419.R (3)	Independent Research (Capstone)
431 (3)	Global Plant Diversity
451 (3)	Conservation Education and Community Engagement
453 (4)	Animal Physiological Ecology
467 (3)	Conservation Biology
497 (3)	Socioecology of Primates
