

You've found Miami, now...

# DISCOVER EHS

---

**M** MIAMI UNIVERSITY  
COLLEGE OF EDUCATION, HEALTH & SOCIETY

This could be your day, or not. **It's your choice.**

**8:00 AM**

Wake up. Grab coffee and a quick bite from the dining hall on the way to your first class.

**8:30 AM – 9:50 AM**

**Educational Leadership (EDL) 232 - Introduction to Community-Based Leadership:**

Explore theories and practices of leadership in public institutions and communities. Students critically examine three concepts central to community-based leadership: public, leadership, and democracy.

**10:00 AM – 11:00 AM**

Meet up with friends at Starbucks on campus (you can use your meal card) and catch up or do a little work/reading.

**11:00 AM – 11:30 AM**

Quick workout or take a moment to relax.

**11:40 AM – 1:00 PM**

**Biology/Microbiology (MBI) 115 - Biological Concepts: Ecology, Evolution, Genetics and Diversity:**

Integrated study of microbes, plants, and animals emphasizing biological diversity and interdependence of life and environment.

**1:00 PM**

For a special treat head uptown for lunch with friends.

**2:15 PM – 4:05 PM**

**Lab for your MBI 115 course.**

**5:00 PM**

Group project meeting in Armstrong Student Center.

**6:00 PM**

Meet up with hallmates for dinner.

**7:00 PM**

Head out to play or watch intramurals at Cook Field.

**9:00 PM**

Work on course assignments/class reading until it's time for bed.

EDUCATION

# Change Makers WELCOME!

Here's where you'll help young people find their talents, their confidence, and their future - or even transform the education industry.

# Why Teach?

## INSPIRE FUTURE GENERATIONS

“I’ve always wanted to lead, to make a difference, and to be a positive role model for those who may not have one. In the end, I want to leave this world knowing that I brightened someone else’s future. There’s no better way to do that than by being a teacher...”

**Trey Clements '15**  
Early Childhood Education

## COMPETITIVE SALARY

### 2018 Median Annual Incomes

While ranges vary between states, districts, and personal experience, most teacher salaries offer a very competitive level of economic comfort and security.

**\$59,780**  
SPECIAL EDUCATION TEACHERS

**\$57,980**  
ELEMENTARY TEACHERS

**\$58,600**  
MIDDLE SCHOOL TEACHERS

**\$60,320**  
HIGH SCHOOL TEACHERS

**\$95,310**  
K-12 PRINCIPALS

*\*From the U.S. Department of Labor’s Bureau of Labor Statistics*

## CAREER OPPORTUNITIES

### Projected Job Growth Through 2026:

SPECIAL EDUCATION TEACHERS  
**8% increase**

ELEMENTARY TEACHERS  
**7% increase**

MIDDLE SCHOOL TEACHERS  
**8% increase**

HIGH SCHOOL TEACHERS  
**8% increase**

K-12 PRINCIPALS  
**8% increase**

Between 2014 and 2024, the U.S. Bureau of Labor Statistics (BLS) projects nearly 1.9 million job openings for teachers of preschool through postsecondary school.

# Putting the “Teach” in “Teacher”

TEACHING  
NATIONWIDE**

2019

**U.S. NEWS &  
WORLD REPORT**

# Education Studies (non-licensure)

“The best educational experiences are those where the teacher understands that education comes from the Latin ‘educare,’ to draw out. So we are not just filling students up with stuff, even at the undergraduate level. They come with life experiences too, and an understanding of the world. We should be co-constructing knowledge with them. I start my classes with that theoretical framing. You are not an empty vessel. So my work is to pull you out.”

**Dr. Thomas Poetter**

Faculty Member

## EDUCATION STUDIES CAREER PATHWAYS\*

(for non-licensure path)\*

- Admissions Counselor
- Chief Learning Officer
- College Administrator
- Community Organizer
- Community Outreach Specialist
- Community School Coordinator
- Education Entrepreneur
- Educational Policy Advocate
- Grant Manager/Liaison
- Homeless Liaison
- Museum Educator
- Partnership Coordinator
- Recreation Worker
- Research/Data Analyst
- Volunteer Coordinator
- Youth Organizer
- Youth Services Program Director

*\*The Education Studies Degree is a non-licensure program.*

### TRANSFORM EDUCATION AND LIVES

Not all learning takes place in schools. Education Studies is designed for students who desire a career in education outside the classroom. Not tied to teacher certification, students explore a wide range of topics. The core curriculum provides students with a solid foundation including research and discussion of youth, families, health, wellness and justice issues.

# Hearing from OTHERS

**MARIA KAHN '19**

**Major: Integrated Social Studies Education**

“Knowing that the Teacher Education program was one of the best that I had found made me really excited. Within the first 5 minutes, I was sold as soon as I got on campus.”

**CIERRA SWOPES '12**

**Major: Science Education**

“My advice to students considering a career in teaching is to go for it! I can honestly say that whether the day is good, bad, or indifferent, I love it. There is never a dull day when students are around.”

**JEFF LYMAN Ed.S. '14**

**Educational Psychologist at Oak Hills Local Schools in Cincinnati**

“The support that I got at Miami from the faculty and just the program in general was tremendous. It is something that I hold near and dear to my heart. And I can't say enough great things about how they really did - from the moment I arrived - help prepare me to be where I am today.”

**“Miami’s Department of Teacher Education is a great place for future teachers. As an international student, I found my professors to be supportive. They really care about their students’ passion and about what I needed to succeed.”**

**Jing Xiao '13**

MAT AYA English Language Arts,  
Chinese Education Licensure

# Healthy Living? GAME ON!

Our graduates make an impact as leaders in health, nutrition, and sport careers. You can guide people toward a healthy lifestyle through nutritious eating, physical activity, and meaningful research or study one of the largest and fastest growing industries in the United States – Sport.

# Hearing from OTHERS

## KATE VAN AUKEN

Parent of Audrey Van Auken ('18)

"Miami's program, where students are assigned to a high school, a Miami college sport, or to a facility each semester, is a wonderful educational experience that prepares Miami students in ways other universities do not"

## AARON HANNIGAN '14

"I had the opportunity to present at a major conference. I also had the chance to continue to collaborate with Dr. Berg during my graduate education for a publication. It's extremely rare at most schools that undergraduates have the opportunity to develop such strong relationships with their professors."

**“Oxford, Ohio is a special place. You get to have a great time. You get to meet great people. But you also leave with a degree that says Miami University and it’s just an endless network of people.”**

**Charles Zubrod '14**

Major: Sport Leadership and Management (SLAM)  
Chicago Cubs Business Development Representative

**DUSTIN WOODS '09**

**LA Rams Strength & Conditioning Coach**

“Miami breeds successful people. If you just look at the alumni list of the 18 of the last 9... and not only that, but a lot of the students come from successful families. They came here with an attitude and an expectation of being successful. And that’s their only thought, their only attitude. That’s contagious. So when you associate yourself with those kinds of people and those personalities, it just rubs off.”

**KELSEY BILLER '15**

**Doctor of Physical Therapy**

“I was part of finding participants, getting research money to fund our project, data collection, data processing, writing of the findings, and presenting the research. I participated in every aspect of the research process firsthand instead of just reading about it in a book.”

**GRETCHEN MATUSZAK**

**Faculty Member - Director of the Didactic Program in Dietetics**

“There is a lot of heart and soul here. If you look at these students, you see that. they are living it, talking about it, breathing it. They are creating a whole sense of community around wellness. They are phenomenal individuals and they shine.”

# Break Down Barriers: BUILD UP COMMUNITIES

---

Our globalized society is ever-changing. So are we. Learn to serve the diverse needs of individuals, families and communities through our interdisciplinary approach. Fieldwork and community service opportunities will prepare you for whatever comes next.

# Hearing from OTHERS

**“Being a part of this research team dealing with breast cancer survivors has been a very rewarding experience. I learned how long of a process research and publication can be. I got to see how collaboration and teamwork was a very important part of the whole process. It translated the experimental process I do in the lab to qualitative research involving people, and it has also given me the leadership skills that I will carry with me.”**

**Lindsay Clark '17**

**MARY MARTIN '18**

**Major: Social Work**

“In our classes we talked about challenging experiences and how to respond to those challenges. You also get to apply what you learned, and you gain an appreciation for the process of generating knowledge. Being a part of that process and seeing how people come to understand that knowledge was really valuable. When you know what that process looks like, it is easier to ask questions and to learn even more.”

**ELISE RADINA**

**Faculty Member**

“Many of my students want to go into some sort of helping profession. And they say, ‘What I have learned from listening to people’s stories has helped me to think about how I am going to be in that job.’ It’s not just the clinical things that they learn. They understand that there is a backstory, and they learn how to talk to people about their backstory.”

**CAROLYN SLOTTEN**

**Faculty Member**

“Students get lots of information, but a lot of practical information, a lot of applied information, and it is very interactive. I say, ‘This is your world and there is something in it, or something in your past or your neighborhood, you can make a difference.’ I think that is very empowering for many people. I feel very strongly that one person can make a difference in all sort of ways.”

# What Happens **Outside** of Class

## **SERVICE LEARNING & COMMUNITY ENGAGEMENT**

Numerous courses infuse community service into course content. As a result, you are able to gain real world skills and enhance your learning while serving the local community.

## **GET INVOLVED IN CAMPUS LIFE**

Follow your passion. Enjoy camaraderie and friendship with classmates who share your interests and goals. Train a service dog with 4 Paws for Ability, cook a nutritional meal with the Student Academy of Nutrition and Dietetics (SAND), or stick the landing with Miami Gymnastics.

Choose from 600+ student organizations and clubs at Miami.  
Explore your options on the HUB – [MiamiOH.campuslabs.com/engage](https://miamiOH.campuslabs.com/engage).

MIAMI STUDENTS  
CAN CHOOSE FROM  
**600+**  
STUDENT  
ORGANIZATIONS.

### **STUDY ABROAD / AWAY**

Go outside your comfort zone and your time zone. Prepare to compete in the global economy. Learn, develop, and exercise skills that will serve you in any career:

- Communication
- Broad and strategic thinking
- Cross cultural competencies
- Flexibility and adaptability
- Independence and self-reliance
- Leadership

### **RESEARCH AT MIAMI**

Team up to make a difference. Co-author research papers. Present at national conferences. Make valuable professional contacts. You'll learn a range of professional skills that students at most other universities don't develop until graduate school.

A STUDENT'S REFLECTION

# Megan DORSEY

National Council of Teachers of English (NCTE)  
Conference Quickwrite - **Houston 2018**

“As I sit here, sweaty from the walk across the entire conference center to make it to this session, I cannot help but feel my heart. It’s beating, yes, but it also feels as if it’s pumping. It is pumping love, excitement, and happiness through my veins. If you could tell freshman year Megan where she’d be today – I don’t think she would believe you. If you could tell her she’d be in Texas with the classmates she was afraid to talk to freshman year, watching professors she thought might be too cool to ever actually get to know her... If you could only see the fear in her eyes, she was so scared to do this whole college thing and this whole teaching thing... Oh man. I wish I could give her a hug

**“How lucky I am  
to have found a  
home here”**

and tell her that the next years of her life will change because of Dr. Batchelor’s class and Dr. Romano’s class – not only because of what they explicitly teach, but because of the community they helped create and the life lessons they’ve taught us along the way. If I could tell her that the people you once made small talk with from one McGuffey room to the next would become your weekly coffee dates or people you will talk pedagogy with forever. How lucky I am to have found a home here in the hilarious car rides to field and in the late nights crying over the edTPA and in the “you can do this” responses from my panicked emails. Oh, how lucky.”

## Advice from an Alumnus

**JOSEPH KENNEDY M.S. '15**

**Mental Conditioning Coach, IMG Academy**

Also, don’t be afraid to ask questions. Don’t be afraid to be wrong. Put yourself out there. What is great about the program is that they do help you and they teach you a lot, but they push you. Each day is an opportunity to learn.
