# Welcome.

Dear fellow Miamians,

On behalf of the Interfraternity Council, the Multicultural Greek Council, the National Pan-Hellenic Council, and the Panhellenic Association, we are thrilled to welcome you into our community. As a member of the Miami family, you are a part of a legacy that has been growing on campus since our founding. The education that you will receive encompasses more than just a commitment to strong academics, but copious opportunities to develop through student engagement and involvement on campus.

Over the next four years, you will not only be working towards a degree and discovering your career path, but will also develop meaningful connections with others, allowing you to find your place in the Miami community. The fraternity and sorority community is grounded in five core principles: scholarship and learning, service and philanthropy, leadership and values, community, and brotherhood and sisterhood. Each provides development through meaningful connections and life lessons. These principles are designed to support you in your ongoing development as a leader and individual on Miami's campus. Constituting the largest student group on campus, fraternity and sorority members represent over 5,000 undergraduate students. With this network of support and enriching opportunities, membership in a Greek organization will provide members with a personal connection to Miami traditions and legacy.

With over 50 Greek organizations across four councils, there is endless opportunity to find the chapter best suited for you. Each chapter offers unique experiences that will be sure to strengthen your reserve and character while preparing you for future success. Fraternity and sorority life enhances the lives of each individual who serves as a member of their Greek organization. With that, it is our hope that you will find this guide to be a valuable resource, guiding and helping you understand the ways in which involvement in the fraternity and sorority community can impact your college experience and future endeavors.

We look forward to seeing you at recruitment/intake and wish you the best of luck in all of your college pursuits. Go Greek! Go RedHawks!

Love and Honor,

# From the President

Dear fellow Miamians,

Character, leadership, and service are at the very core of our values at Miami – they are visible expressions of what it means to live Love and Honor in our community. This is a special place with a distinct legacy, a unique mission, and a deep responsibility. Miami has a rich heritage of student involvement and campus leadership. One of our oldest and most revered traditions of student engagement is Fraternity and Sorority Life.

To many, joining a fraternity or sorority is an excellent opportunity for personal growth, servant leadership, academic success, and a sense of responsibility to serve our community with a higher purpose. Many of our extraordinary alumni attribute their success to Greek life experiences, especially the values their fraternity or sorority instilled in them.

As you experience campus life during the first semester and beyond, you will find many ways to engage and lead. We have nearly 600 student organizations, including over 50 fraternities and sororities, each offering unique and dynamic experiences. Please take every opportunity to explore how these groups and organizations can enhance your journey at Miami and beyond. Think about how, through your participation and membership, your life and the lives of others will be enriched and transformed in positive ways. Find and engage with those who will challenge you, stretch your mind, expand your perspective, develop your virtues such as courage, empathy, and humility, awaken your delight, and deepen your love for Miami.

If you choose to participate in Fraternity and Sorority Life, look closely at these organizations' core foundations, values, and virtues and note their alignment with Miami's Code of Love and Honor. Hold yourself and your fellow Miamians to the highest standards of excellence in all that you do. Hold true to Love and Honor and our shared dedication to serving a higher purpose. You will see the quote on campus: "To think that in such a place, I led such a life." Embrace both the incredible benefits of this life and the responsibilities that come with membership in these special communities and the greater community of the Miami family.

I wish you all the best.

Love and Honor,

Gregory P. Crawford

# FIVE PILLARS OF THE COMMUNITY

## Scholarship and Learning

Each chapter commits itself to the tenet of enhancing scholarship and learning within the chapter. As a result, members of Miami's fraternities and sororities consistently earn GPAs above campus averages for both men and women.

## Service and Philanthropy

One of the most rewarding aspects of fraternity and sorority involvement is the opportunity to impact the lives of others. Last year, Miami Greeks completed over 37,000 service hours and donated over \$320,000 through service projects and philanthropic fundraisers.

## Leadership and Values

Miami's Greek community is dedicated to developing strong, multi-faceted leaders. Fraternity and sorority life provides an outstanding means for the discovery and implementation of each member's unique leadership potential by encouraging individuals to strive for positive change in their organizations and the community.

## Community

The Greek community has been thriving for over 190 years at Miami, and it offers engaging opportunities that are hard to match elsewhere. Whether it is a fraternity or sorority sponsored service, philanthropy, athletic event, or speaker, students grow as individuals through their Greek involvement.

## Brotherhood and Sisterhood

Within each chapter, there is a close bond of friendship and family. This is one of the foundations of the Greek experience and is a cornerstone that each organization is built upon. The unique personalities of fraternity and sorority members provide a diverse and well-rounded Greek community.

# RECRUITMENT AND INTAKE ELIGIBILITY

All four governing councils and individual chapters may establish standards of membership including, but not limited to, credit hour and grade point average requirements. To affiliate with a fraternity or sorority, a student must have completed all of the below requirements prior to the start of the recruitment or intake process.

## Minimum Eligibility Requirements

- One full-time fall or spring semester (at Miami University or other accredited institution of higher education).
- 12 college credit hours (does not include AP, IB, dual-enrollment credit achieved in high school).
- At least a 2.5 minimum, cumulative, grade point average for Panhellenic, MGC, and NPHC organizations and at least a minimum 2.75 for IFC fraternities. Transfer GPAs cannot be combined – only the most recent college GPA received will be considered.
  - For first year students, only the fall GPA will be considered. The Cliff Office does not accept Winter Term grades to determine recruitment eligibility.
- Completion of two assigned online education modules.
- Student eligibility will be verified through the Cliff Alexander Office of Fraternity and Sorority Life prior to the chapter extending any form of invitation to membership. Only transcripts from the most recent institution attended will be considered.

## SECOND-YEAR HOUSING

### Fraternity House Living

Miami University recognizes the benefits a strong fraternity community has on the undergraduate experience. An important component of that experience is providing the opportunity for undergraduate men to live with their fraternity brothers in a safe environment that is supportive of a student's academic success and personal development. Because of this commitment to fraternity and student success, men have the opportunity to live in fraternity houses during their second year. Students must meet the minimum requirements set by Miami University and the individual chapters in order to be eligible to live in the houses. Men must have a 2.75 cumulative GPA and must not have any conduct violations reported through the Office of Community Standards.

Men must submit an application in order to be considered for second year exemption. Individual chapters also have to meet certain requirements to be eligible to have sophomores live in the chapter house. All requirements are reviewed and verified by the Cliff Alexander Office of Fraternity and Sorority Life.

### Sorority Living Learning Community

The Sorority Living Learning Community (LLC) was created to allow our sorority women to enhance their collegiate experience and strengthen their sisterhood by living with members from their chapter and women from other chapters. The expectation is that all sorority women in Panhellenic chapters live in the Sorority LLC during their second year at Miami. Sorority LLC applications open in early March after the primary recruitment process has concluded.

Our chapter, one of the newest on campus, was established with the vision and belief that Greek life could be something more, something that truly enriched lives, embraced brotherhood, and cultivated an environment in which all members were valued. We pride ourselves in high standards of membership, commitment to core values, and our role in bettering all Greek life at Miami. We are a rapidly growing chapter, yet we never sacrifice quality for quantity. Each new member is truly a Man of Word and Deed who will uphold our values and improve this brotherhood. We give ample opportunities for leadership and allow every brother to know each other, creating strong, lifelong bonds. # Intake FAQs

### When do MGC and NPHC organizations start the process of taking in new members?

MGC and NPHC chapters conduct intake in either the fall or spring semester. Chapters conduct intake at their own discretion and based on the needs of the chapter.

### Do I have to identify as a person of color to join an organization/chapter (i.e. Latinx for MGC or African-American for NPHC)?

No. MGC, NPHC, and their respective chapters have non-discriminatory policies and practices. All racial identities are welcomed to seek membership and learn more about the uniqueness of each council and their chapters.

### How do I express interest in joining a MGC or NPHC organization/chapter?

The most common way to express interest is to attend the organization's programs, events, or service projects. You are not expected to go to everything the chapter hosts, but showing face and engaging with the chapter is a good start to expressing your interest. Some organizations (not all) will host an informational meeting for potential new members to express interest and ask questions of current chapter members.

### How do I become a member of one of the organizations within MGC or NPHC?

MGC and NPHC organizations may recruit and conduct their membership intake differently. Membership intake is under the full operation of the respective chapter and their national organization. Most require an invitation to be extended and an interview to be conducted to the person of interest. However, each chapter has their own requirements of becoming a member. Chapters and the councils strongly recommend those interested to do their research on the organization and visit the national headquarters website to learn more about how to join and the requirements needed.

### Between the MGC and NPHC, is one council better than the other?

No. Each council and their respective chapters are unique, with their own traditions. Both councils bring a different perspective of what "traditional" fraternity and sorority life is and can look like. The councils equally bring rich history to the community. Ultimately, both councils provide open doors for interested students to find a sense of belonging within the fraternity and sorority community that they may not have thought possible.

# Recruitment FAQs

## What is recruitment?

Recruitment is the process by which IFC and Panhellenic chapters on campus introduce themselves to prospective members. During this time you are invited to visit the chapters to learn about what each group has to offer. Each council has a different schedule, IFC recruitment occurs over one week and Panhellenic recruitment occurs over two weekends.

## What are the requirements to join?

Students must meet the following requirements before joining the recruitment process:

- One full-time fall or spring semester.
- 12 college credit hours (does not include, AP, IB, or dual-enrollment credit achieved in high school).
- At least a 2.75 minimum, cumulative GPA for Interfraternity Council fraternities and a 2.5 minimum, cumulative GPA for Panhellenic sororities. (Transfer GPAs cannot be combined – only the most recent college GPA received will be considered).
- For first year students, only the fall GPA will be considered. The Cliff Office does not accept Winter Term/J-Term grades to determine recruitment eligibility.
- Completion of two assigned online educational modules.

Eligibility will be verified through the Cliff Alexander Office of Fraternity and Sorority Life.

## How many chapters are there?

The Interfraternity Council is made up of 26 fraternities and Panhellenic is made up of 18 sororities that are all nationally recognized and in good standing with Miami University.

## Can my Winter Term grades count towards the GPA requirement to go through recruitment?

No, the Cliff Office does not accept Winter Term/J-Term grades to determine recruitment eligibility. This means that you have to complete the fall semester with a 2.75 GPA at minimum for IFC or a 2.5 GPA for Panhellenic.

## How much does it cost to be part of a fraternity or sorority?

Joining a fraternity or sorority does carry a financial commitment. Each chapter sets its own dues for the academic year, they vary in cost from new member to active member. Dues go towards inter/national fees, social functions, chapter operating expenses, and educational programs and initiatives. The Cliff Alexander Office of Fraternity and Sorority Life has updated information, but it is best to talk to each chapter individually about the associated costs for a more detailed breakdown.

## What are Panhellenic Sprite Dates?

Sprite Dates are informal open house style events for potential new members to meet current chapter members prior to recruitment in the spring. It's a casual setting, held in the chapter suites, that allows students to get to know our chapters in a more relaxed atmosphere.

## Do I need a letter of recommendation to go through Panhellenic recruitment?

No! Letters of recommendation are not required. For Panhellenic recruitment, if you know a sorority woman who wants to write a letter of recommendation on your behalf, it should be sent directly to the chapters. More information about letters of recommendation can be found at [MiamiOHpanhellenic.org](http://MiamiOHpanhellenic.org). IFC does not accept letters of recommendation.

## Can I go through recruitment if I am an athlete?

Absolutely, many athletes join our community each year! For IFC recruitment, there is not a set schedule. Students can attend chapter open houses throughout the week. Student-athletes can get to know the chapters whenever best fits their schedule. Please keep in mind that chapters can begin to hand out bids starting on the Monday of recruitment.

It is required that potential new members going through the Panhellenic process attend all rounds for which they are invited. However, if you have scheduling conflicts with recruitment because you are a student-athlete, Panhellenic will do their best to accommodate your schedule so you can participate.

## Does everyone participating in recruitment receive a bid?

It is not guaranteed that everyone participating in the IFC recruitment process will receive a bid. It is up to the chapters to select who they want to offer bids to.

Panhellenic recruitment is a mutual selection process. Each chapter has their own criteria for membership and it is not guaranteed that you will be asked back to all of the chapters you loved. However, if you go through the entire recruitment process *and* rank all of the chapters you visited for preference round, you are guaranteed a bid. It may not be a bid from your first choice chapter. On the other hand, if you do **not** rank all the chapters you visited during preference round, or you intentionally preference a single chapter, there is no guarantee that you will be offered a bid.
