Executive Summary

- The Offices of Career Services and Institutional Research collaborated to collect placement information for alumni who graduated in 2014-15 with a bachelor’s degree from Miami University’s Oxford campus.
- Educational and career placement data were collected from numerous sources, including the New Alumni Online Survey, the New Alumni Phone Survey, public LinkedIn profiles, graduation surveys (including surveys by Institutional Research, the Farmer School of Business, and the College of Engineering and Computing), the National Student Clearinghouse, and Miami University’s Banner data system, and are based on alumni placement as of fall 2015.
- Educational placement data were available for 100% of alumni while career placement data were available for 68% of alumni (excluding those who were enrolled in graduate/professional school). Information on alumni’s current state/country of residence was also obtained for 78% of alumni.

Footnotes

¹ The "knowledge rate" indicates the percentage of the graduating class for whom we have data, regardless of the source of the data.

² Because participants were allowed to select more than one option, responses may total more than 100%.

³ All items in the "Career Placement" section exclude from analyses individuals who are enrolled in graduate or professional school. This methodology is consistent with the methodology used in the Miami 2020 Plan dashboard indicators.
