Executive Summary

- The Office of Institutional Research collected educational and career placement data for 2015-16 Oxford campus bachelor’s degree recipients from numerous sources, including the New Alumni Online Survey, the New Alumni Phone Survey, graduation surveys (including surveys administered by Institutional Research, the Farmer School of Business, and the College of Engineering and Computing), the National Student Clearinghouse, public LinkedIn profiles, and Miami University’s Banner data system. Results are based on alumni placement as of fall 2016.

Footnotes

¹ When individuals who are not actively job-seeking are excluded from placement counts, the overall Oxford campus bachelors' placement rate increases to 96.6 percent.

² The "knowledge rate" indicates the percentage of the graduating class for whom we have data, regardless of the source of the data.

³ See footnote #1.

⁴ All items in the "Career Placement" section exclude from analyses individuals who are enrolled in graduate or professional school. This methodology is consistent with the methodology used in the Miami 2020 Plan dashboard indicators.

⁵ Because participants were allowed to select more than one option, responses may total more than 100%.

⁶ In-field/out-of-field status is based on alumni working full-time, those working part-time, and those for whom their FT/PT status is unknown.
