Appendix C: Methodology

For the 2016-17 graduates, students must be employed, serving in the military, serving in a volunteer or service program, or enrolled by Dec. 31, 2017 in order to count as successfully placed.

First Destination data are based on variety of data sources, including online surveys, phone surveys, national databases, data from Miami University offices, direct employer confirmation, and public sources. When multiple data sources are available, data that are self-reported by the graduate after graduation (i.e., online and phone surveys of alumni) are prioritized.

Data Sources

New Alumni Online Survey

An online survey of alumni, conducted by the Office of Institutional Research and administered September - December (after the end of the academic year).

New Alumni Phone Survey

A phone survey of alumni, conducted by the Office of Institutional Research and administered October - December (after the end of the academic year).

Banner

Data on graduates who are employed at Miami after graduation or who continue their enrollment at Miami (after completing a degree) is based on data available in the Banner data system.

Optional Practical Training (OPT)

The Office of International Students and Scholar Services maintains employment information on international graduates who participate in Optional Practical Training (OPT). The OPT program allows individuals who are in the U.S. on a student visa to work after graduation for a limited period of time.

National Student Clearinghouse

The National Student Clearinghouse (NSC) maintains student enrollment records for students enrolled at more than 3,600 colleges and universities, representing 98% of all students in public and private U.S. institutions. NSC records are used to identify graduates who are continuing their education after graduation.

OIR Graduation Survey

A online survey of graduating students (undergraduate and graduate), conducted by the Office of Institutional Research. The Graduation Survey is administered each term to students shortly prior to graduation.

Farmer School of Business (FSB) Graduation Survey

A survey of graduating FSB students (undergraduate and graduate), administered by the Farmer School of Business.

College of Engineering and Computing (CEC) Graduation Survey

A survey of graduating CEC students (undergraduate only), administered by the College of Engineering and Computing.

Center for Career Exploration and Success

A small number of employers provide hiring and salary data directly to the Center for Career Exploration and Success.

LinkedIn

Public profiles of graduates are used to identify basic placement information, including job-seeking status, position titles, employer names, and enrollments. LinkedIn profiles are used only if all other data sources failed to provide data.
