

Miami University  
MSN Nurse Executive Leadership Track  
Student Performance Evaluation

Student Name	
Course Name	Nurse Executive Leadership Practicum I
Dates of practicum	
Preceptor Name	
Date of Evaluation	
Preceptor Signature:	
Student Signature:	
Faculty Signature:	

Preceptor should evaluate student when hours are 50% complete and with a second evaluation at the completion of total hours. Students are required to complete 105 hours. (In rare cases, students may be taking additional hours with approval from faculty.)

Indicate student's level of performance by marking an "X" rating for each of the five criteria.

**Please discuss your evaluation rankings for each criteria in the comments section below table.**

Criteria	Area of Strength	Progressing	Area for Improvement
Demonstrates effective communication skills with diverse individuals to promote community, academic, and interprofessional relationships			
Demonstrates understanding of leadership in healthcare systems, including reflective practice, systems thinking, and critical analysis using evidence			
Demonstrates leadership thinking skills that build on experiential learning and uses these skills to effectively manage change and lead in healthcare systems			
Demonstrates a strong sense of ethics and professional accountability, including advocacy for healthcare team, for patients and families, and for the community			
Demonstrates understanding of financial and strategic management, human resource management, and information management skills necessary to lead health systems			

Criteria	Area of Strength	Progressing	Area for Improvement
